

# Year 2 Sticky Knowledge: Scientific Concepts

Biology	Chemistry
I know how to classify things by living, dead or never lived.	I know how materials can be changed by squashing, bending, twisting and stretching.
I know how a specific habitat provides for the basic needs of things living there (plants and animals) and can match them to their habitat.	I know why a material might or might not be used for a specific job.
I know how to name some different sources of food for animals and can explain a simple food chain.	
I know the basic stages in a life cycle for animals, (including humans).	
I know why exercise, balanced diet and good hygiene are important for humans.	
I know how to explain how seeds and bulbs grow into plants and know what plants need in order to grow and stay healthy.
